

ePals SchoolMail™ is the recognized leader in FREE school-safe email for students in grades K-12, providing easy-to-use multilingual electronic communications solutions to schools and districts worldwide in a protected, customized, and collaborative environment.

**ePals is a Global Community** of collaborative learners, teachers, and academic experts in 200 countries and territories.

**ePals provides Connections** to students, classes, and school districts worldwide that are safe and secure.

**ePals is the safe and protected solution** for linking classes, schools, and school districts globally

Please complete the following ePALS Classroom Project Application Form:

Teacher Name:

School Name:

Brief Project Description: How do you plan to use ePALS in the classroom:

I understand by signing up for ePALS as the classroom teacher I am responsible for approving all email messages sent by the students in my class. I also agree to send out the parental consent form to all parents of students under the age of 13. I understand I must keep the signed parental consent forms on file.
